

Big news! As part of the evolution and growth of evergreen insurance managers inc, we are excited to announce the launch of our newly tailored company logo. This wasn't a decision we made lightly but our business has matured over the past 11 years, and we felt it was time to visually communicate our growth.

We are proud of our humble beginnings which were sown in an ethical foundation and conservatively nurtured daily into the firmly rooted and thriving company we are today. We are so thankful to you, our valued business partners and for the opportunity to cultivate and expand your business portfolio... one policy at a time! Yes we are getting a new fresh look but our dedication and service to you will remain steadfast and true! You can always count on us to be ethical, reliable, honest, prompt, professional, down to earth good people.

NEW LOGO:

The logo was designed to be simple, friendly and memorable utilizing the shape and color from our original logo. The abstract evergreen tree is inviting and crisp. The font used for "evergreen" is bold, beautiful and curvy; complimented by a thin font that is simple, light & unique.

We ask you to keep an eye out in the next few weeks and months as we will be releasing our new look in our newly designed newsletters and last but not least a brand new user-friendly website!

We value your partnership and thank you for joining us on our continued adventures.
